LETTER FROM UNION COUNTY.

A MILD WINTER IN GRAND RONDE VALLEY.

LA GRANDE, Feb. 5, 1872.

TO THE EDITOR OF THE OREGONIAN:

DEAR SIR—Thinking it might be of interest to your readers to hear from this portion of Oregon concerning the weather, etc., I drop you a few lines; and if you are as destitute of news this winter as we are here in Eastern Oregon, this will be new to you, although you may not get it before some time next summer. We have had occasionally a stray letter from the Great Wallamet during the winter, but I think it has been two months since we received a paper mail from the west. I wish to say here that if the Postal Agent had any particular interest in Eastern Oregon, I think he would try to supply us with a mail occasionally.

The weather in Grand Ronde Valley this winter has been comparatively pleasant. The thermometer has fallen below zero but once, and that for not more than one or two days. There has not been more than ten inches of snow at any one time, and that did not remain on the ground more than three days; although we have had several flurries of snow two to three inches at a time, which generally went off next day. Stock have had no difficulty in obtaining their own living so far, and look fat and fine, and our facilities for procuring hay, straw, grain, etc., for stock, are almost unlimited. I presume that there is feed sufficient now in this valley to keep all the stock here for six months of severe winter weather. Hay is worth but four dollars per ton, grain about one and a half cents per lb., and almost any amount of it on hand. The prospect is now that nearly all of the hay and grain will be kept over. I have resided in this valley ten years, and the average of the winters stock has not required more than one month's feeding; and every winter since I have resided here, a large amount of stock have been kept without any feeding whatever. It is a popular saying that on the Pacific coast every tenth winter is very severe, and in fact such has been the case all over the Pacific slope, except in the valleys of Grand Ronde and Powder River. In 1861 the winter in Wasco, Umatilla and Walla Walla was very severe, and from the fact that there are but very limited facilities for putting up hay or grain in those sections, a large proportion of the stock in those valleys died from starvation and cold that winter. The snow in those valleys was from two to three feet deep, and lay on the ground nearly two months, and what stock survived the winter were not of much account in the Spring. That winter was the first that the white settlers remained in Grand Ronde valley, and the winter was so mild here that [illegible] wintered here without anything except what they got themselves, were slaughtered for beef in the Auburn mines the next Spring. And this winter (1871-2) is very much like the one ten years ago, while Wasco, Umatilla and Walla Walls are having deep snows and cold weather for two months or more, with a great amount of stock of all kinds, and nothing to feed them with. The east side of the Blue Mountains is revelling in sunshine and mild winter with but little snow or cold. Stock are all fat and plenty of hay and grain at very low prices. This marked difference in climate between the east side of the Blue Mountains during these hard winters is beginning to attract the attention of stock raisers, and many are already preparing to change localities. In fact this county east of the Blue Mountains, as far as my observations extends, and I have lived in Oregon for sixteen years, is the most favored location for stock raising on the Pacific coast, all things considered. We have almost endless pasturage, plenty of good timber, easy of access, the purest and best of water at convenient intervals, and the richest and most productive of natural meadows. And while this is a desirable stock country, it is also very productive for grain of all kinds and also vegetables and fruit, and had we a railroad to furnish a cheap and convenient mode of transportation and a reliable market, we would astonish the world with the amount and quality of our various products.

Yours, etc., FELIX.

A Bevy of "Happy Thoughts."

[Eli Perkins in the New York Commercial Advertiser.]

I saw a man pulling his arms off trying to get on a new pair of boots, so I said:

Happy Thought—They are too small, and you will never be able to get them on till you have worn them a spell!

I heard an officer in the 7th Regiment scolding a private for coming too late to drill, so I said:

Happy Thought—Somebody must always come last; this fellow ought to be praised, for, if he had come early, he would have shirked the scolding off upon somebody else!

I saw an old maid at the Fifth Avenue, with her face covered with wrinkles, turn sadly away from a mirror, so I said:

Happy Thought—Mirrors nowadays are faulty. They don't make such nice mirrors as they used to when you were young!

I heard a young lady from Brooklyn praising the sun, so I said:

Happy Thought—The sun may be very good, but the moon is a great deal better, for she gives us light in the night when we need it, while the sun only shines in day time, when it is light enough!

I saw two men shoot an eagle, as he dropped on the ground, I said:

Happy Thought—You might have saved your powder for the fall alone would have killed him.

A young man was disappointed in love at Niagara Falls, so he went on a terrible precipice, took off his clothes, cast one look into the fearful whirlpool, and then—

Happy Thought—Went home and went to bed!

Two Mississippi River darkies saw for the first time a train of cars. They were in a quandary to know what kind of monster it was, so one said:

Happy Thought—It is a dried up steamboat getting back to the river!

A poor sick man, with a mustard plaster on him, said:

Happy Thought—If I should eat a loaf of bread I'd be a live sandwich!

As a man was burying his wife he said to a friend in the graveyard: Alas! you feel happier than I. Yes, neighbor, said the friend:

Happy Thought—I ought to feel happy, I have two wives buried there!

A man "out West" turned "State evidence," and swore that he was a member of a gang of thieves. By-and-by they found the roll of actual members, and accused the man of swearing falsely. "I was a member," said the man. "I"

Happy Thought—"I was an honorable member!"

The Crystal Palace at Sydenham, eight miles southeast from London, has been established for eighteen years, and during that period the average annual attendance has been 1,659,000 persons, while during 1871 the building was visited by 2,120,00 persons. The receipts for 1871 amounted to $739,560, and the expenditures to $485,170, leaving a balance of $243,390. At a recent meeting of the company an annual dividend of one and a half per cent. was declared out of the profits for 1871, leaving $34,775 to be carried to the reserve fund.

SHORT PARAGRAPHS.

The London *Times* characterizes as spurious the correspondence between Gladstone "Senor Antonio" respecting the transference of Gibraltar, which appeared in the Dublin *Evening Mail*.

A whole page in the London *Times* is covered with an advertisement of "The United Kingdom Alliance to procure the total and immediate suppression of the traffic in all intoxicating liquors." A fund of £100,000 is wished, and about $72,000 has been already guaranteed.

The statistics of the Episcopal Church for the past year are as follows: Bishops, 54; clergy, 2,898; baptisms, 38,405; confirmations, 24,124; communicants, 224,995; marriages, 9,698; burials, 26,791; candidates for order, 412; ordinations—deacons, 124; presbyter, 116; Sunday-school teachers, 24,494; scholars, 239,090; contributions, $5,554,574.

A new shoe has come into general use in in Paris. It is imperfectly described as being a "narrow rim of iron, which gives perfect protection to the edge of the boot, without cramping its sole." It is said to require much less weight of metal, and therefore is cheaper. Though not specified, we suspect that nails are not used. It is said to give great satisfaction. It is called the Chanlier horse shoe.

It is said that Juarez, President of Mexico, has enlisted fifteen hundred fighting men in Texas and Arkansas, and that they are now in active service. They are armed with Winchester rifles and officered by men formerly in the Confederate army. Such a force should make short work of the Mexican rebels. Certain it is that no body of Mexicans twice or thrice their number can withstand them.

The workingmen of Connecticut are in the field with an independent ticket for State officers. Their Convention consisted of but thirty-one delegates, but those appear to have been equal to the consideration of the gravest problems. One of the speakers upheld the Paris Commune, and said that if the wrongs of workingmen in this country were not righted, the time would come when they would maintain their rights by some other power than the ballot. It may be doubted whether the "party" will be able to rally any considerable support to a standard inscribed with such a menace of revolution.

The Emperor of China is soon to be married, and has imported a pair of elephants to assist at the ceremony. His future consort is undergoing a careful training in the etiquette of court life. For three years the looms of Nankin, Hongchun and Canton have been engaged on the silks and satins for her [illegible], and just now they are announced as completed, at a cost of nearly half a million in our money. While the bridegroom, who has the sun for his emblem, goes forth in a car drawn by elephants, his bride, who represents the moon, is to be borne to her palace in a palanquin composed entirely of strings of pearls.

OREGON.

A hunting party in Jackson county killed 225 rabbits.

A new schooner called the *Gotama* has just been launched at Coos Bay.

At the Dalles at last accounts hay was selling at fifty dollars a ton, oats at $1 50 a bushel and wheat and barley at $2.

Tried and found wanting—a person in Lane county who has once filled an office and is now found wanting to fill the same office again.

The schooner *Starr King*, from San Francisco to Coos Bay, is, it is feared, lost. A letter from the Bay says that she had been out over thirty days and no tidings were heard of her.

Hon. John Burnett in a speech at Albany a few evenings since called the South the "Gem of the Ocean" which had been laid waste by carpet-baggers. Hon. John's similitudes need revision.

The navigation of the Umpqua river is practically a failure. A steamboat during the late rise succeeded in getting twelve miles above Scottsburg but could ascend no further. We have no idea that the effort to navigate the stream will ever amount to anything.

More evidences of harmony in the happy family. The Eugene *Guard* "goes after" the Jacksonville *Times* at a fearful rate; says it is controlled by mean and corrupt influences and isn't faithful to the interests of "the party." Next week, we doubt not, the *Times* will have the *Guard's* scalp with the ears on dangling at its belt.

From the *Statesman*: Mr. Stanton on the Santiam bought a large LeRoi turbine wheel last week of Myers Bros., and they sold two lately to go to Tillamook for Baxter's new saw mill. These wheels were brought from the East, and before another year, we hope to see them made here in Salem. That will be part of the business of the new works now creating here.

On Saturday at Salem Judge Benham heard argument on the suit of W. H. Watkinds against A. B. Cosper, County Clerk, asking for mandamus to issue to compel the Clerk to give up papers in the case of Clarke vs. Watkinds so as to effect a change of venue to Linn county, without payment of costs incurred by plaintiff, caused by such change of venue, as the Court had adjudged. The motion for mandamus was refused. It is quite a pity, says the *Statesman*, that the law should in any way interfere with the whims of Mr. Grover's pet, who evidently has got to think himself superior to what little law exists in this State.

Far back in the dim distance says a contemporary, "there is a tradition that we may expect pleasant weather in February, and so, doubtless, we may be grievously mistaken. Human expectations don't go for much, especially in February, it seems. There may be a dim remembrance of some year when there was a pleasant spell in this month, but when was it? That time begins to fade into a distance so dim and vague that tradition is all that can rescue it from oblivion." About two pleasant Februarys we have seen in twenty years. Good weather in February is an axiom much more honored in the breach than in the observance.

GENERAL NEWS CONDENSATIONS.

A few months ago a man named Gerke was murdered by his son in Tehama county, California. The perpetrator of this most unnatural deed has recently been heard of in China.

A few days ago Brigham Young gave notice in the church organ at Salt Lake, that in 1866 he offered $500 reward for the arrest of the murderers of Dr. Robinson, but now, in consequence of endangering the lives of innocent men, he withdraws the offer.

The Sacramento *Union* warns the Legislature of California against giving out too freely franchises for extensive schemes of irrigation, because there is danger that the volume of water in the rivers would be so diminished as to render them unnavigable a considerable part of the year.

A Texas paper says: "We have been asked why we stopped publishing the list of marriage licenses issued by the clerk. Because a great stand-up-in-the-mud out there in the sand hills said we published his daughter as married when she weren't, and that he would hit us on the head hard enough to knock our spokes out of joint. Is the explanation satisfactory?"

Transplanting Trees and Vines.

[From the New York Observer.]

The great difficulty to be encountered in transplanting trees, vines or plants of any sort is, that in most instances many of the roots are severed from the stem and are left where they originally grew. It is seldom practical to remove all the roots with a tree or bush. In case every little root or rootlet of a tree could be taken up without injury and be transplanted, carefully into a congenial seed bed, the plant would suffer no perceptible injury in consequence of the removal. The chief idea in taking up and transplanting trees, vines or flowering plants is to place the roots in their new bed as nearly as may be practicable in the same position as they grew.

The former part of the growing season is a far better time to transplant anything than in late autumn, for the following reasons:

1. That a tree may endure the rigors of winter with the least injury, the roots must have a vital hold on the soil. When the trees and vines are transplanted in late autumn, the roots will have no vital hold on the soil during the winter. Hence, the branches must suffer more or less during the cold weather, because this vital union has been severed.

2. Every tree and vine is a thing of life. Sap and moisture are constantly evaporating from the buds, twigs and branches, even after the growing season is ended. Hence, to supply such waste, more or less moisture must be taken up by the roots and conveyed to the branches, even in the winter. To prove that there is more or less circulation of the sap during the winter months, let a large branch or tree be girdled in late autumn, sufficiently deep to cut off all the sap wood, and all above the girdle will dry and wither before spring, while other branches not girdled will remain green and full of sap. Mutilating the roots operate like girdling, just in proportion to the extent of mutilation. If the ground where trees are standing be frozen solid and deep for a long period, the trees will often be seriously injured by the evaporation of more moisture from the bark and buds than could be supplied by the frozen roots.

By transplanting trees and vines at the former part of the growing season, they will be required to stand only a few weeks *without* a vital hold in the soil. The better period, therefore, to remove trees of any sort—either deciduous, or evergreens, or vines—is in the former part of the growing season, unless they are taken up with frozen earth. Trees may live and grow satisfactorily, after having been transplanted in the late autumn; yet the same trees would have succeeded still better if they had been removed in the spring before the buds had expanded.

Potatoes.

We all have observed the great deterioration in our potato crops, during the past ten or twenty years; and what is the cause of this alarming decrease of tubers? Can science, can chemistry point out the reason, or aid in [illegible]? We think it can, and in order to place the matter in a clear light, we will point out the kind and amount of food which the potato demands. We had a field of potatoes upon the farm which yielded 300 bushels to the acre; this may be regarded as an old fashioned crop. This crop removed from the soil in tubers and tops at least 400 pounds of potash; also, it removed 150 pounds of phosphoric acid. Now, these amounts are very large, and serve to show that the potato plant is a great consumer of the two substances, and also it shows that in order to restore our potato fields to their former productive condition

The Daily Oregonian.

TUESDAY MORNING, FEBRUARY 13, 1872.

REMOVAL NOTICE.

On Tuesday, Feb. 20th, THE OREGONIAN will be removed to the new office, on the south-east corner of Front and Stark streets.

Preachers of "Reform."

It raises a laugh when a Palstaff announces a purpose to "purge and live cleanly." Quite as amusing is it to hear our Democratic party preaching political morality and declaring its resolution to be honest and to give the people an honest administration, in case the Government is entrusted to Democratic control. A party which has been a breeder of disorder, a corrupter of public virtue, a debaucher of politics, a friend of every wrong and oppression, a fomenter of violence and rebellion for more than a dozen years, cannot obtain credit at once upon its professions of reform. Tweed, perhaps, could not make a very effective campaign in behalf of honesty and against corruption. The party which produced him and upheld him as long as it could, would meet with little better fortune. There is something so exceedingly absurd in such a party's coming forward as a champion of public honesty, that the claim challenges attention from its very grotesqueness.

The Democratic party supported slavery and was beaten. It set up a peace-at-any-price platform and was beaten. It advocated repudiation and was beaten. It opposed equal laws and general suffrage and was beaten. It developed in New York City, where its headquarters were, a system of corruption and public robbery of such proportions as astounded and shocked the world. And now at last, finding that its schemes of lawlessness and public plunder have all failed and that it is pilloried before the country, it attempts to throw over its exposed person a cloak of honesty, assumes a virtue though it has it not, talks volubly of "reform" and puts on an air of indignation at the "peculations" and "corruptions" of its political opponents. A scanty fig leaf of covering for a body gross with nakedness and exposure!

Let us get at matters nearer home. All the profligate legislation which this State has ever known emanated from the Democratic party. Until the days of recent Democratic ascendency in Oregon nobody thought of legislative jobbing. It entered not the minds of the people, it was suggested to no one even in dreams, that legislation could be or would be resorted to to enrich a favored few at the expense of the many who compose the State. But our present rulers changed all that. They instituted a "new departure." For many reasons it is deemed desirable to have locks constructed for the passage of boats at Willamet Falls. Taking advantage of this, the representatives of the ruling party put up a job whereby a preference of $75,000 in building the locks was given to a corporation composed chiefly of leading Democratic politicians, with Senator Kelly and "Gov." Miller at their head. Another and greater scheme of plunder was cooked up in the swamp land law. The litigant was followed, and the Portland police system, which now costs the people of this city twenty thousand dollars a year and gives fat jobs to favorites of the ruling party, was superadded. Nothing but the jealousy of greedy rings who couldn't agree in the division of the spoil, prevented the absorption or stealing at the last session of the Legislature of everything possessed by the State, and the Congress of the United States was obliged to step in and save the rest of the school lands from seizure and confiscation. It was openly charged,—and the charge was made by Democrats,—that their associates in the Legislature went home heavy with the "swag" of bribes which they had obtained for doing ring service. These charges were never met, and stand as true.

This is the party that is now preaching homilies against corruption. Its whole machinery in this State, as its honest members know, is in the hands of corruptionists who are seeking their unworthy ends. Discourses in behalf of honesty from such sources are not likely to bring about the immediate regeneration of political affairs.

Disobeying the Law.

A bit of ring practice that is quite characteristic has been disclosed in connection with the management of the funds arising from the sale of school lands. Section five, article eight, of the Constitution of the State provides that "the Governor, Secretary of State and State Treasurer shall constitute a Board of Commissioners for the sale of School and University lands, and for the investment of funds arising therefrom, and their powers and duties shall be such as may be prescribed by law." In 1868 a law was enacted which provides that the "Board of School Commissioners shall pay over all moneys now in their hands, or that may arise from the sale of the said School and University lands to the County Treasurers in which said lands are located."

It is asserted by the Board that this statute is in direct conflict with that clause of the Constitution above quoted; therefore they decline to obey it. This plea has been entered by the *Herald* in behalf of the Board, and was evidently inspired by the Governor. It rests on a mere verbal quibble. Take the whole clause of the Constitution and compare the statute with it, and there will not be found any conflict whatever between them. But suppose there were an *apparent* conflict, by what right could the Governor assume to pass upon the constitutionality of a statute, thus usurping a function of the judiciary?

It now becomes necessary to explain why the Board violates this law. If the money were paid over to the county treasurers as the law directs, it would pass out of the control of the State ring. But by refusing to turn it over to the county treasurers, the ring are able to hold and manipulate it for political purposes, and for their own advancement. For instance, the Governor is a candidate for the United States Senate. By having control of this large sum of money, say one hundred and fifty thousand dollars, he can lend and invest it in such a way as to materially help his cause. It can be made to play the part of a corruption fund; and this, it would seem, is the only reason why this action is taken.

These funds, if turned over to the treasurers of the several counties as required by law, would be loaned in the counties to which they belong, and would materially assist their industrial development. Benton county is so much dissatisfied with the arbitrary and unlawful course of the Board that the County Court has ordered correspondence to be opened with a view to requiring the Board to pay over the moneys belonging to that county. We shall see whether the Governor, who is engineering this matter obviously for his own political advancement, will be able to place himself above law and maintain himself in that position.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEB. 9.

THE SNOW BLOCKADE.

From Cortland.

CORINNE, U., Feb. 10.—A dispatch from Rawlins says a person returned from western-bound trains, who left there yesterday, says the first train west is five miles from Rawlins; snow drifting badly, and engineers shoveling snow into banks to keep clear. A dispatch from Bitter Creek reports no trains passed west yet, nor have any passenger trains passed between there and Rawlins. There is no prospect of getting through

EASTERN STATES.

Colfax Strong for Grant.

INDIANAPOLIS, Feb. 10.—The *Journal* this morning publishes a letter from Vice President Colfax referring to a telegram from this city to the effect that the effort being made to secure for him the Republican nomination for President, and saying that no such effort was being made anywhere by my wish or authority, publicly or privately, but by speeches and letters I have invariably declared myself in favor of President Grant's renomination. Have so written to every friend in Indiana who asked my opinion. He adds that he hopes his name will not be mentioned in the Indiana State Convention in this connection, and that the Convention will declare unanimously in favor of Grant's renomination, and takes occasion to say that he will not accept the nomination for Vice President, but will support any other candidate for that position.

Nebraska News.

OMAHA, Feb. 10.—Governor James, accepted as Governor since the impeachment of Butler, left the State yesterday P. M., going East on business. J. S. Haskell, President of the Senate, left this place also, yesterday P. M. for the Capital, and this morning we have a proclamation from him as Acting Governor, convening the State Legislature. A call is made, among other things, for the purpose of taking action as to when any offices shall be vacated and the manner of filling the same; and also for the official investigation of conduct of army officers, and, if deemed expedient, their impeachment. It is claimed that this is sharp practice, with the intention of impeaching the absent Governor, who lately prorogued the Legislature, in which case Haskell would become Acting Governor of the State. The Legislature is called to meet Feb. 15th. Governor James will probably be back in two or three days.

Small-Pox—Japanese Embassy.

CINCINNATI, Feb. 10.—Thirty-five deaths from small-pox occurred last week.

Steps are being taken to invite the Japanese Embassy to visit this city.

The Tammany Thieves.

NEW YORK, Feb. 10.—Connolly's bail will justify.

On Monday's indictments for conspiracies are embraced the names of Tweed, P. B. and James M. Sweeny, Ed Woodward and Hugh Smith, are charged with defrauding, through vouchers, for over $500,000 paid to J. H. Keyser. Warrants have been issued for the arrest of Smith, Woodward and James M. Sweeny, their bail having not been tendered. John J. Bradley is Peter B. Sweeny's bail.

Mayor Hall believes if he was disposed, he could quash the indictments against him on the following grounds: 1st—The Grand Jury violated the law by transacting much of their business outside of the jury room. 2d—The indictment found against him was from testimony he furnished them. 3d—No opportunity was given him of challenging the jury, as he had a right to do, and the jury not being legally constituted,—they not being residents.

Peter B. Sweeny is at his residence. He returned to the city upon receiving intimation of the intention of the Grand Jury. His friends feel confident that he will be able to establish his innocence.

At the Police Matinee yesterday a gentleman, who preferred charges, did not appear. Lockwood, President of the Company, testified that the indebtedness never exceeded $450,000.

ST. LOUIS, Feb. 10.—The Rockford, Rock Island and St. Louis Railroad Company has offered a reward for the apprehension of Fred. Baker and Patrick Alpino, conductor and engineer of the freight train which collided with a passenger train near Alton on Wednesday last.

An Immense Storm.

SIOUX CITY, Feb. 12.—The *Journal* of this city publishes a highly sensational report received from a teamster in the employ of John Smith, post trader on the Spotted Tail reservation, in the Black Hills. He returned from the Black Hills with Smith's train on Tuesday last. When about 200 miles from the reservation a party of Indians came up and reported that Spotted Tail with his band, then on their return from a buffalo hunt with Grand Duke Alexis, were overtaken by a terrible rain storm, and the whole party had perished. Rain froze as fast as it fell, and the whole country was covered with ice from four to six inches in thickness.

The storm was of several hours' duration. No living being unsheltered could have survived it. There is strong probability that the story has some foundation. Smith's train was in the same storm, although not as severe, being further south. They were obliged to seek shelter in a canyon in the mountains and remain there four days, during which time their sufferings were intense. Teams one of Fort Randall are expected to reach there to-morrow, when something definite will be known.

General Eastern News.

CHICAGO, Feb. 10.—A Democratic caucus was held at Springfield last night to discuss the duty of Democrats in the coming Presidential campaign. Ex-Treasurer Sturns presided. Speeches were made by General McClernard, F. J. Turner, Hechebielle, a leader of labor reform in the State, and other speakers were united in their opinion in favor of the passive policy, and giving the support of the Democratic party to the candidate of liberal reforms for the Presidency.

CHICAGO, Feb. 10.—The *Tribune's* New York special says a Cable dispatch was sent on Wednesday by Secretary Fish, in reply to the note of Lord Granville, in which it was explained that the object of the United States in presenting the claims for indirect damages by Confederate cruiser to the Geneva arbitrators, was to place the question before the Board—have nothing unsettled that might be productive of future discord between the two countries. If only the claims for direct damages were considered it might be urged that the question was still open to dispute, and it was thought best to present the whole case to the arbitrators and leave it to their decision, is perfectly reliable.

CHICAGO, Feb. 12.—A Washington special says the most numerous lobby that has gathered for any single purpose in Washington for a long time is now here, working to dispossess the Indians of their lands in their Territory. While the movement is in the interest of railroads and land speculators the special says various schemes are proposed. One of the shrewdest has just been exposed. Shanks, of Indiana, in his Committee on Indian Affairs, is charged with the investigation of these matters. The bills in question propose to make the Indians citizens. The point is this—if they become citizens their title to lands now held would become null and void except under terms of deed by which lands were conveyed to them upon their settlement in the Indian Territory.

New York Dispatches

NEW YORK, Feb. 10.—A dispatch to the *Herald* from Quebec says that Mr. Laurie, Minister of Public Works, denies the truth of the rumor as to the ready separation between Great Britain and Canada. Lieut.-Gov. Beaun and Printer Cauvean, also make the same denial.

A session of the Methodist Book Committee was held yesterday. It was mostly occupied with the consideration of the annual report, embracing the financial exhibit of the concern. The body will adjourn to-day.

A Washington dispatch says the answer of the Government to Earl Granville's note on the *Alabama* question was as little to the purpose as Granville's communication. The text of the latter document, however, is not yet received at Washington, or knowledge of its contents been founded on that sent by cable.

The Custom House Committee has examined during the five week's session, 153 witnesses. Fifty-six were summoned but not examined and 37 were on the list but not summoned. The entire expenses will be about $6,000.

NEW YORK, Feb. 11.—The pastoral of Bishop Bayley, of New York, urges all Catholics to keep out of International Societies, and says the public schools of Jersey are virtually Protestant, to which it is improper for Catholics to send their children.

A large number of Germans celebrate to-night the anniversary of the first compulsory payment under the Treaty of Paris.

A woman named Mary Holland killed her landlord, John Klamp, at 504 Seventeenth street, last evening, in a dispute over his regulations concerning chopping wood, by striking him on the head with a hatchet. She was arrested and claims that he first seized hold of and strangled her.

Chancellor Seabrishie, of New Jersey, died to-day.

NEW YORK, Feb. 11.—A mass meeting of silk weavers last evening agreed to memorialize Congress against the reduction of the tariff on imported silk goods.

NEW YORK, Feb. 12.—A Philadelphia dispatch to the *Herald* says Horace Greeley was yesterday in consultation with McClure, Judge Avery and other politicians. It is believed that an anti-Grant coalition has been formed between those gentlemen and Forney. The latter's resignation causes excitement in Philadelphia.

The steamship *Mora Castle*, which arrived yesterday from Havana with a party of excursionists from this city, was caught in a storm when off Nassau, and narrowly escaped being wrecked. Coal had given out, and some eighty boxes of sugar were used as fuel to make port.

NEW YORK, Feb. 12.—A special to the London *Dispatch* says that Minister Schenck communicated by note to the English Government on the recent language of Gladstone which was deemed an imputation on the good faith of the United States. The note is regarded as a proper assertion of the dignity of his Government, and will, it is likely, be answered in the most friendly manner, deprecating our diplomatic application towards the United States in the heat of debate.

Bismarck has offered the Governments at Washington and London his good offices in effecting an agreement in relation to the Alabama claims.

The English Government is anxious to avoid any misunderstanding with the authorities at Washington, and a compromise is hoped for at no early day.

A Washington dispatch says the President expressed his gratification at the temperance of the American press on the excited comments of the English press, on our case before the Geneva Conference. If the English Government withdraws he thinks the United States cannot agree with honor to any new negotiations.

A New York special says the Catholic Irish of this and adjoining cities are intensely engrossed over the trouble with England and seem confident that there will be war. They are very anxious that there should be and are delighted with the idea. Circles have been holding meetings, passing violent resolutions and pledging themselves to stand by their adopted country through thick and thin. They declare that they can raise at least 100,000 men in and about here within sixty days after war is declared, and half a dozen Americans familiar with the sea have made arrangements to fit out privateers from this port at once in the event of hostilities beginning. It is believed that fifty privateers would leave here in two months, as there is any amount of capital any number of sailors for such enterprises, which are extremely popular in this country.

Election Inspectors Indicted.

The Hudson county (N. J.) grand jury has indicted three Inspectors of Election, for signing false certificates, by which Dennis Reardon (Rep.) was declared chosen to the Legislature.

The people are asking for Major of New Jersey to resign, on account of his alleged complicity in the frauds on the Treasury.

Conkling, the defaulting Treasurer of the Market street Savings Bank, left Toronto last Monday for Halifax and South America.

Two daughters of a Mrs. Thomas were burned to death in a fire in the Fourth Ward, in Rochester, yesterday. The family was recently from Wales.

WASHINGTON CITY.

Land Grabber Frauds.

WASHINGTON, Feb. 10.—Information has been received at the General Land Office of extensive frauds by land speculators in southwestern Kansas. The lands in question are open only to actual settlers. In order to evade the law a well organized system has been arranged by which the lands were entered by false representations of settlement by parties upon fictitious names and by manufacturing bogus testimony. The Government officials are prosecuting the offenders.

CHICAGO, Feb. 10.—The *Evening Journal's* Washington special says the Japanese Minister gave a dinner last night to the members of the diplomatic corps.

More About the Treaty—Granville's Letters.

WASHINGTON, February 11.—There is no new feature relative to the treaty. Our Government is not disposed to multiply words over the case. No reply can be made to Lord Granville's note to General Schenck until the exact text is received, which is expected here this week. There has been much interest manifested, but no unusual excitement up to the present; in fact, to appearances, there is not anything to indicate that even should England recede from the treaty, results would follow more serious in their consequences than the situation before the treaty was negotiated. Nothing has even been hinted in official circles about strengthening our national defenses to meet a possible contingency, and no one has publicly expressed the opinion that such measures will be necessary. It is reported in executive quarters that our Government is willing to abide by the result of the tribunal of arbitrators in the matters submitted to them; and will expect a corresponding degree of good faith on the part of the British Government.

Amnesty Bill.

WASHINGTON, Feb. 11.—Some Southern Senators, friends of amnesty, express themselves as confident of the passage of the House amnesty bill now lying on the Senate table, and while they anticipate that Senator Sumner will again offer his civil rights amendment, there will be found in the Senate a sufficient number to vote down the amendment, or defeat it by a strict party vote. Having made their record on that question, which was carried by the casting vote of the Vice President, they say its further consideration is useless, as the amnesty bill, which requires a two thirds vote, cannot be passed with such an incumbrance as Sumner's amendment in the way. The bill can doubtless secure the required number of votes to pass it. The friends of amnesty are in high spirits at the prospect of success.

Other Washington News.

WASHINGTON, Feb. 10.—Another expedition under Commander Croseman is soon to be fitted out by the Navy Department to survey the Nicaragua route.

NEW ORLEANS, Feb. 10.—The Congressional Investigation Committee concluded its labors today and leave to morrow evening for Washington.

Gen. Banks has been much annoyed by reposition of reports that he is to succeed Minister Curtin at St. Petersburg. He authorizes the positive denial of their truth, and says he has no wish to leave this country and the position he now occupies.

Gen. Jeff. C. Davis and Gen. S. W. Crawford, two of the surviving officers of the Fort Sumpter command, have left Washington for Baltimore to join the escort with the remains of Gen. Anderson, and will proceed with them to West Point.

The bill presented by Secretary Boutwell to the House Committee on Commerce, giving bounties to encourage ship-building, etc., as a means of reviving American Commerce, is fully understood by Secretary Robeson, but it is regarded as a measure that will meet with but little favor, and there is no prospect of its becoming a law.

The U. S. steamer *Iroquois*, now fitting out at Philadelphia, mounts six guns, and will probably be assigned to the East India squadron.

The President has appointed Sayles J. Bowen, ex-Mayor of Washington, as Minister to Ecuador.

WASHINGTON, Feb. 10.—J. W. Forney to-day presented his resignation of the Collector of the Port of Philadelphia to the President in a letter, in which he says he finds the office as he had anticipated, but that it interferes with his business, particularly as a journalist, and announces his intention to devote himself exclusively to journalistic duties, and to the support of the principals of the Republican party.

BY ATLANTIC CABLE.

London Dispatches.

LONDON, Feb. 10.—The *Times* says it is morally certain that an attempt to settle the *Alabama* claims before the Geneva Board will be a failure. We must therefore make an effort to prevent angry remonstrances. If we are successful, the time is possibly near when we may settle all difficulties.

LONDON, Feb. 10.—Great anxiety is manifested for the latest news from America relative to the *Alabama* claims. A special dispatch from New York and Washington to the press is posted on the 'Change bulletin board and surrounded by large crowds. Yesterday's debate in the Senate on Edmunds' resolution is fully reported by cable, together with extracts from editorials of leading New York journals.

A Marine Disaster.

A marine disaster off Dunrose, in the English Channel, is reported. The steamer *Elerton* was run into by the ship *D. Holman*, and sunk. Capt. Brue and 17 persons belonging to the steamer were drowned. The damage received by the ship is not stated.

News from Paris.

PARIS, Feb. 10.—It is not expected in diplomatic circles here that the difficulties in relation to the *Alabama* claims will prove serious. Minister Washburne proposes a departure for the present. Probably he may abandon his journey altogether.

More about the Washington Treaty.

LONDON, Feb. 11.—The *Observer* says no answer has been received from Washington to Earl Granville's communication concerning the *Alabama* claims. It is expected that the reply will not express a decided opinion on the question of indirect damages, but will urge the Geneva arbitrators.

From Rome.

ROME, Feb. 11.—General Sherman and Lieut. Grant are expected here to-day, to remain about ten days, and then proceed to Naples with the United States fleet under Admiral Alden.

Spanish Affairs.

MADRID, Feb. 11.—It is probable the Radicals will refuse to vote at the forthcoming election for members of the Cortes.

SOUTH AMERICA.

NEW YORK, Feb. 11.—The South American mail steamer has arrived with dates from Rio to January 224.

The distinguished Brazilian statesman Viscount Idahosky is on board.

A recent outbreak of fanaticism in the town of Jondio, in one of the Argentine States, resulted in a fearful massacre. Gauchos, excited to frenzy by a man named Saluno, made a sudden attack on the foreigners. The latter, taken by surprise, were unable to defend themselves, and before the authorities could stop the slaughter, thirty were killed. The assassins were then attacked by the troops. They fled, but were surprised and sixteen shot, and twenty four taken prisoners.

MEXICO.

NEW YORK, Feb. 10.—Matamoras dispatches says that Cortinas' forces have been so reduced by casualties and disturbances since leaving Camargo that he cannot keep the field, and is expected at Matamoras to-night with the remnant of his command. Many of his horses starved to death.

Toovans, Nargens and Guerra united their forces to 6,000 men to attack San Luis Potosi, held by Rocha with 2,000 Government troops.

UTAH.

SALT LAKE, Feb. 10.—There is said to be much sickness and suffering among passengers of snow-bound trains. The distance separating them from Ogden is three hundred and ten miles, and some of it bad road. It is snowing here to-day and a heavy storm this afternoon.

Minister DeLong explains that the visit to Brigham Young was not intended by him or the Embassy; that he and the Embassy were escorted by the city authorities, or a committee, and taken to Brigham's house, after visiting other places not knowing where they were going, and had not thought of paying Brigham attention beyond what might be proper to any private citizen.

Brigham Young has been quite ill for the past two days. He is said to be failing in strength rapidly.

The election to morrow for city officers promises to be exciting. The liberals are doubtful of success, but they are determined to show their full strength.

The total signatures of indorsement of Judge McKean are 5,000.

The Japanese visited the tabernacle and a number of churches to day.

ARIZONA.

The Arizona *Miner* of Feb. 3d, contains the following:

Complaints are made of insufficient mail service on the lower routes.

The mining news is meager.

No snow or rain for ten days past.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Feb. 10.—The consignment of apples per *Oriflamme* were sold at auction this morning, prices ranging from fifty cents to $1 per box, with a small lot of fifty boxes of extra choice selling at $1 50 per box.

SAN FRANCISCO, Feb. 11.—Arrived—Ship *Prince Doria*, 190 days from New York; merchandise to Goo. Howe & Co.

Paymaster Gen. Geo. Pierce, of the Department of Columbia, has been temporarily transferred to this Department, and will, in March or April, proceed to Arizona to pay off the troops there.

It rained hard all night; to-day fine; fine wind now northwest; clear and cool.

A number of professional gamblers, whose places had been closed by the police, went into Nevada ——— recently, and returned to this city a few days since. They express themselves decidedly in favor of legitimate faro.

A little more than a year since a prominent broker made a contract with another to sell him one hundred and fifty shares of Belcher for the amount of assessments to be levied upon it within the year. The stock was never delivered, but the second party sold it for forty dollars a share subject to delivery, and there has been trouble over it ever since. After two commissioners had been appointed by the Stock Board to decide the question, it was compromised yesterday by the payment of $7,500 by the man who contracted to give away the stock. There has been but two assessments on it in the mean time, and the stock is now worth over $110,000.

SAN FRANCISCO, Feb. 10.—The funeral of the old pioneer, Capt. John B. R. Cooper, who came to Monterey in 1822, will take place from the St. Mary's Cathedral to morrow afternoon.

A lady, whose husband was Captain of the lost bark *Live Yankee* and with their son perished on that vessel, is in the calaboose this evening, apparently insane.

Coming—Ship *Republic*, from Newport, Wales, to Williams, Blanchard & Co.

The large number of persons who bought stocks at 20 per cent. have been called on to-day to put up another margin of 20 to 30 per cent. If the break continues, money will be in large demand on this account next week.

The Board of Underwriters have addressed a very complimentary letter to a captain who brought his ship to port with a temporary rudder, under circumstances of extreme difficulty, accompanied by a present of $500.

SAN FRANCISCO, Feb. 12.—Flour unchanged—dull.

Wheat—No sales; market is nominally $2 15 @2 25.

Oats—From $1 60@2 80 will cover the range for all kinds.

Hay—$10 50.

Sheriff Morse and deputy Morehouse of Alameda county and detectives Bohen and Stone of this city, arrested in Morton Place to-day the famous desperado Shoe, Redondo alias Pesonpolo, who is charged with cattle stealing in Alameda county, nephew of Joaquin Murratia Andes; suspected of the murder of John Barns, of Cocomango Rancho, Los Angeles county. He was subsequently arrested for the murder of the Golder family, Alameda county, but his pals escaping he was not tried. After that he was sent to the State prison for seven years for cattle stealing. Since his release he has been the head of a gang of stage robbers in the lower counties, narrowly escaping several times. He had to-day two revolvers on him. When the officers entered the room where he was dining and covered him with six revolvers at once, and having no show he gave up.

INTERIOR CALIFORNIA DISPATCHES.

SAN MATEO, Feb. 11.—At the inquest held last night on the body of a man found in a hollow tree, the jury found he was a native of England, named Penfrew, aged 41, and that death resulted from exposure.

VALLEJO, Feb. 10.—Weather cloudy; indications of rain.

PLEASANTON, Feb. 11.—A heavy shock of earthquake was felt here this evening at 7½. It lasted two seconds. No damage done.

LOS ANGELES, Feb. 10.—A weekly stage line, direct to the Owens' River mines, commences running Monday.

Weather clear; rain much needed.

Washington County Republican Convention.

The Republican County Convention for the county of Washington will be held at the Court House in Hillsboro at 1 o'clock P. M. on Saturday, the 9th of March, 1872, for the purpose of electing nine delegates to the Republican State Convention to be held in Portland on the 20th of March, 1872.

The primary elections in the several precincts will be held on Saturday, March 2d, 1872, at the usual places of voting in said precincts, beginning at the hour of 1 P. M. of said day. The several precincts will be entitled to delegates in such County Convention as follows:

Cedar Creek	4	Centerville	4
Wapato	4	Beaver Dam	3
Daisy Creek	4	South Tualatin	3
Dutto	8	Forest Grove	10
Hillsboro	10		

S. W. CARTER,
Chairman County Committee.

REMARKABLE CURE OF THE SUPERINTENDENT OF THE GUADALOUPE MINE.

"THE WORK GOES BRAVELY ON."—CASE NO. 6001—SECOND SERIES.

GUADALOUPE MINE, near SAN JOSE, Aug. 15, 1871.

DR. A. M. LONZER & CO.—For a long time I have been afflicted with Rheumatism in my hands and feet, the pains most of the time being very severe. On the 7th of July I procured some of your UNE WEED REMEDY, and after using only three bottles, find that I am quite restored to health and strength. I have had the Rheumatism for eleven (11) years, and think that the success of the "UNK" in curing a disease of so long standing, in so short a time, is very remarkable.

As a tonic and appetizer I have never met with anything equal to the "UNK WEED REMEDY." During the time I was taking it I gained fifteen (15) pounds in weight. Trusting that this certificate may be useful in inducing others affected as I was to try the "UNK,"

I remain, very truly yours,
JAMES T. BROWN,
Supt. and Agent Guadaloupe Mine.

TUESDAY MORNING, FEBRUARY 13, 1872.

CITY.

REMOVAL NOTICE.

On Tuesday, Feb. 20th, THE OREGONIAN will be removed to the new office, on the south-east corner of Front and Stark streets.

STILL SHIFTING.—The *Herald* hath had in its day, many masters; and now it has got, if report be true, a half dozen all at once. It is said that Messrs. Semple and Patterson have sold out their interest to the "Ore Fino Fellows," whoever they may be. Report mentions in this connection, Messrs. A. B. Hallock, Commissioner and Councilman, and J. H. Lappeus, Chief, etc. The same authority states that Mr. H. is to be the big Boss of the concern, and that hereafter, everything is to be hunky-dory, whatever that may mean; but not even Madam Rumor says anything about who are to be the secondary bosses. It is only known that there is to be some reconstruction, some new departure, perhaps, and all that sort of thing; but which particular school of Democracy it will hereafter train in, is not definitely known. These be stirring times for all the wings, and as might have been expected there is much flattering.

THE SENSATION IN A NEW SHAPE.—A few people got excited again yesterday, over an undefined sort of report that somebody had seen Captain Ely—the pilot reported carried off by the bark *Harrington*—at Astoria. The sensation took this shape: Anxious inquirer—"Have you heard the story reported by a river pilot that he saw Captain Ely at Astoria, on Saturday, all right; and that the *Harrington* had gone to sea, all right?" Or, "I wonder if it is true that Captain Ely was seen," etc. We found our reportorial legs too brief to run the story down, and we finally concluded that if the story were true it was very good for Ely, and if false, it wasn't so good for Ely; and that, further than that, we didn't know anything at all about the matter. We trust that this will be entirely satisfactory to the quid nuncs.

THE COLUMBIA RIVER OPEN.—The steamer *Hayward* left yesterday morning for the Cascades, and reached there in about the usual time, meeting with no ice. The *Idaho* left the Dalles early in the morning and reached the Upper Cascades about 2 o'clock P. M., having encountered no obstacle. The river is thus proved to be open and navigation is resumed, not to be interrupted, it is hoped, again this winter. The *Hayward* arrived back last evening at half past seven o'clock, bringing about fifty passengers from the upper country. They represent the blockade as having been extremely tedious, the people being cut off from the receipt of all but the local newspapers. Business got to be very dull, too, and altogether the situation was anything but enviable.

GAME IN THE CITY.—During Sunday, while the city was engaged in devotional exercises, or contemplations, the upper ward was thrown into some excitement by the appearance of a fine, large antlered buck in the streets. When our informant first saw him, he was coming down Fourth street at a much faster gate than allowed by ordinance. He turned down Lincoln and made for the river, into which he plunged and struck out for the other side. Some persons on the East Side seeing him coming, put out in a skiff, and after an exciting chase, captured him.

REAL ESTATE MOVEMENT.—The real estate market is showing signs of greater activity than for some time past. Messrs. Stitzel & Upton, Real Estate Brokers, negotiated sales during the week ending Feb. 10th, as follows: Washington county, farming lands, $24,000; Clackamas county, farming lands, $1,500; Portland, city lots, $1,800; East Portland, lots, $5,100.

TEMPERANCE LECTURE.—In another column will be found the programme of Mr. McCormick's lecture, Thursday evening, from which it will be seen that some choice music will be introduced, not only before, but during the lecture, together with the recitation of two or three appropriate poems. McCormick always manages to give such occasions an unusual interest.

WATCH PRESENTATION.—Sunday evening at the St. Charles Hotel, Mr. J. C. Hildreth, assistant superintendent on the O. & C. Railroad was presented with a valuable gold watch by a number of friends, Mr. Wm. Lotbar making the presentation speech; after which all hands dined with Mr. Hildreth.

ST. PATRICK'S DAY.—We learn that the Hibernian Benevolent Society which, with other Irish-American societies, will celebrate St. Patrick's Day, has engaged the Washington Guard Armory for their ball. The anniversary occurring on Sunday, the celebration and ball will be held on Monday.

SLIDE OF A RAILROAD EMBANKMENT.—The express train from Eugene arrived yesterday over an hour behind time. We learn that the delay was occasioned by the giving way of an embankment near Rock Island. The break has been repaired, however, and no further delay will occur.

THE TILLAMOOK SCHOONER.—William Ralston, in the *Bulletin* says the *Hila Bond* arrived at Tillamook from this port on the 23d ult., and on the 6th inst., was in the bay with a cargo of Tillamook produce, waiting on wind and weather to sail again for Portland.

MAILS.—About twenty-five sacks of paper mail were received by the Dalles boat last evening—mostly Eastern papers. Some of the dates were rather ancient; but a few of the Eastern Oregon and Washington Territory papers were on reasonable time.

FESTIVAL.—The ladies of the Furnishing Society of the M. E. church, will have another festival, this evening, at the basement of the Taylor street M. E. church.

AT GOOD STAGE.—The river has "risen" again, and is now at fine boating stage, as far as there is any need for more than a heavy due.

LOCAL BREVITIES.

A number of appeal cases were docketed in the Circuit Court yesterday.

Mr. Joseph Middlemiss will have an auction today of German chromos and ladies' goods.

A movement is on foot in this city to petition the next Legislature to license gambling.

A Mrs. Burgess, walking on Fourth street yesterday, slipped, fell and injured herself severely.

The local reporter of the *Bulletin* was unhappy yesterday because the sun shone a few minutes. Some men are never content.

The Street Commissioner is doing some most commendable work in the matter of having the muddy crosswalks cleaned off.

The *Bulletin* theatrical critic thinks Mr. Waldron is the first actor who ever played Richard Third without murdering the character.

It is now definitely stated that the suits involving the Caruthers' estate have been compromised and the proportionate shares of claimants allotted.

It is observed that a number of persons in whom the grand jury is likely to be interested have been called away—on business, of course—within the last two or three days.

WEATHER REPORT.

FEBRUARY 12, 1872.

War Department, Signal Service, United States Army, Division of Telegrams and Reports for the benefit of Commerce.

Venire ordered to issue for fifteen additional jurors.

Hawley, Dodd & Co. vs Crone & Wolf; dismissed at plaintiff's cost.

F. L. Tilcston vs W. T. Shanahan and Wm. Wadham; action for damages; demurrer to reply.

State of Oregon vs Frederick Willer; peace warrant; on motion of District Attorney defendant was discharged from custody, and cause dismissed.

Jacob Kamm vs city of Portland; appeal dismissed at plaintiff's cost.

The court adjourned till 9 A. M. to-morrow.

COUNTY COURT—HAMILTON, JUDGE.

The Commissioners spent the day in the examination of claims against the county. At the close of the session, adjourned till 10 A. M. next Saturday.

AMUSEMENTS.

ORO FINO THEATRE.—Richard Third, again last evening to a fair house. To-night, the great sensational play Rosedale, will be produced with new scenery and stage effects. No modern drama has reached a higher or more tenacious popularity than this. Mr. Waldron will take the leading character, Elliott Grey.

EXHIBITION BALL.—We learn that the revolving pyramidal column to be exhibited at Mr. Cardinell's ball, Thursday evening, will be a much grander affair than we had at first supposed. It will contain about one hundred ladies, arranged upon successive tiers, from base to apex. The lower tiers will contain each a number of couples who will dance—waltzes, etc.—each tier in an opposite direction, as the pyramid revolves. It will certainly be a beautiful feature of the ball.

BALL AT EAST PORTLAND.—The East Portland Brass and String Band will give a ball at Odd Fellows' Hall to-morrow evening, when, it is understood, that St. Valentine will himself put in an appearance. Messrs. English, H. Glenn, W. Dalton and T. H. Parrott, constitute the committee of arrangements.

TO-DAY'S ADVERTISEMENTS.

Auction sale to-day—Joseph Middlemiss; lecture in aid of Father Matthew Society—by S. J. McCormick; furnished rooms and board; furnished rooms to rent; millwright wanted—by George Abernathy; British ship *Chetah*—consignees notice; dissolution—Joseph Watson and E. Sonnois; New Drug Store—down town—Smith & Davis; real estate—Atkinson & Woodard.

SPECIALS.—Washington County Republican Convention.

Removal of the OREGONIAN office.

THE UMATILLA HOUSE at The Dalles is now completed and furnished in every respect unsurpassed. The office is the most cheerful and pleasant in the State, and the dining hall is unequaled. The rooms are all newly furnished. The house has twelve suites of rooms with stoves in them for families. The new house stands much higher than the old one. The ceilings are four feet higher, which adds greatly to the cheerfulness of the rooms. The table is kept in a style to correspond fully with the appointments.

"STYLES JUST RECEIVED.—Gilt Parlor Furniture! Easy Chairs in great variety! Bequet Stands, Card Receivers, Wall Pockets, Finished in Gilt, Walnut, Ebony, Wax and Marquetry. Call and see the Woven Wire Mattress at HUBGREN & SHINDLER'S.

ROOMS TO RENT.

The Office and Rooms now occupied by Judge Strong, in Cree's Building, corner of Front and Stark streets, will be vacant on the 1st of February, and after that time will be to let. The rooms are centrally located, pleasant and comfortable. Inquire of

WM. CREE.

Nitrous Oxide administered. d8dlf

All the Year Round.

And in all parts of the world, the elements of disease are present in the air, the soil and the water, to a greater or less degree, and therefore the *Great Vegetable Antidote* to those invisible enemies of health, Ketter's Stomach Bitters, is invaluable as a household medicine at all seasons and in every latitude. At a period of the year is a regulating and corrective medicine more needed than toward the close of winter, when the sun and rain are beginning to break up the winter blockade, and from the softening soil arises that terrible miasma, which weighs like an incubus upon the vital machinery, and depresses the animal spirits. It is then that the seeds of intermittent and—remittent fevers, of rheumatism and rheumatic gout, of obstinate stomach complaints, of disorders of the liver and bowels, and a whole host of pulmonary and nervous complaints are sown.

The best, the surest way to prevent this disastrous *seeding* is to invigorate and refresh the system with a course of the Bitters. If this precaution be taken now, there will be no danger of the miasmatic germs taking root in the fluids and tissues of the body, and bringing forth terrible fruit in the spring. Now is the time for prevention. Remember that vigor *is* the only safeguard against the virus of disease, and that Hostetter's Bitters is the purest, the safest, the most powerful and perfect invigorant ever administered, either as protective medicine or a remedy. A change of season approaches which almost always proves more or less disastrous to persons of a weak, nervous organization. Brace up at once with the leading Tonic of the age. Purge from the blood all morbid matter, strengthen the nerves, and regulate and purify the secretions with the Vegetable Elixir, which combines the juices of the finest medicinal roots, herb and barks, with the most wholesome of all diffusive stimulants.

OREGON.

The great ditch on Burnt river is finished and ready for water.

Stealing wood is the prevailing form of larceny at the Dalles.

The coldest weather in Powder river valley was ten degrees below zero. This was on Sunday the 4th inst.

The Baker *Democrat* says the mining prospects of Baker county are very flattering. It estimates that the yield of Baker county will be from half to two-thirds more than last year.

The annual meeting of the Dalles Military Road Company was held on the 5th inst., and the following persons were elected Directors: Messrs. O. Humason, Victor Trevitt, Al. Ziober, O. W. Weaver and O. S. Savage.

We publish to-day a letter from La Grande, which informs us that the winter there has been very mild. Information from Powder river valley states that the winter there has been about equally mild. Only eight or ten inches of snow had fallen.

A great excitement was reported at Canyon City a few days ago over the discovery of a rich mine within 300 yards of the court house. The ledge is eight feet thick and yields gold in fabulous quantities. This discovery it is believed will create a revolution in affairs at Canyon City.

The Dalles *Mountaineer* of Saturday last has a double leaded sensation article announcing the declaration of war by Great Britain against the United States! We hope that communication will remain open hereafter, and that our friends at the Dalles will avoid being hoaxed in future.

THE TERRITORIES.

A paper at Olympia has begun to publish Collins' novels.

At Walla Walla on the 27th ult. the ground was frozen to a depth of eight inches.

A collision took place at Walla Walla a few days ago between J. H. Lasater and the editor of the *Statesman*. The latter went to grass and the former was fined twenty dollars. It was a party quarrel in the Democratic family.

Some days ago Boise river, below Boise city, became jammed with ice. A dam was formed and the water flowed over the banks until it was within eight inches of the highest mark ever known. The river was at the lowest stage.

Eight members of the Walla Walla bar address a long letter to their delegate, Hon. S. Garfielde, setting forth their objections to the amendments to the civil practice act of that Territory, passed by the recent Legislature, and ask to have Congress disapprove of the amended law.

Idaho is one hundred and odd thousand dollars in debt; her credit twenty-five per cent. discount; several of her counties bankrupt, and the substance of her people fast fading away in taxes; and every year but the first since the organization of Idaho she has been under Democratic rule.

A new Bank has just been established in Salt Lake City, called the Salt Lake National Bank of Utah, of which Mr. B. H. DuRell, of Idaho is President, and A. W. White, of Utah, is Cashier. The new bank was to commence operations on the 26th of last month, with a capital of $100,000, which will undoubtedly be increased before many months.

A Walla Walla paper says: Our mails have been regular thus far during the winter. The Missoula mail carried under the contract of Mr. Warren Whitbor, has never yet failed to come on schedule time. The Northwestern Stage Company have almost invariable been in on time with the overland, California and Idaho mail; and the Portland mail has been just as regular—that is, it has regularly failed to come at all.

To the Afflicted.—Dr. Abora, corner Third and Morrison streets, treats with unparalleled success, all chronic diseases, no matter how painful or long standing.

MR. DAVID W. C. BESSELL,
Late Professor of Vocal and Instrumental Music and Organist of St. Mary's College, San Francisco, is prepared to receive Pianoforte and Organ Pupils and to give instruction in Vocal Music in accordance with the strict Italian method. Also, to form classes for the study of Harmony, Thorough Bass, &c.

Mr. Nesfield refers with pleasure to the Directors of the San Francisco Musical Institute and to Frederick Lyster, Esq., late Musical Director of the Lyster Italian Opera Troupe.

Can be seen daily between the hours of 1 and 2 o'clock at Gray's Music Store, Residence, 84 Charles Hotel. d19dlf

LITTLE HOMES!

WE HAVE OBTAINED MANY TESTIMONIALS, which appear in the WEEKLY OREGONIAN, for the purpose of answering once for all the many inquiries in relation to our "LITTLE HOMES." We desire to show to strangers, through men of known integrity in this community that they are all we claim for them—cheap at present prices, and the speculation in them like in the future growth of Portland, in the building of Railroads, and Bridges over the Willamette—which is merely a question of time—and in the fact that in less time one mile distant, City Blocks (200 feet square) are selling for from two to three thousand dollars, and in less than two-and-a-half miles (on a direct line) blocks are selling as high as $200,000 per block! Just think of it! $50 per acre for land, and 2½ miles distant, $200,000 per acre! New York city is over twenty miles in length and six miles wide, and many other cities in the United States are half that long, and quite as wide, and if Portland becomes a metropolis she will require this land for business purposes. Thirty years ago we could have purchased a section of land where the business portion of Chicago now stands for $10 per acre—$50 for a five acre tract. Thirty years ago we could have purchased the town site of Portland for a Cayuse pony—*but we didn't have the pony!* Twenty years ago a solitary individual, with neither money nor friends, found himself in Portland without a red. He purchased a basket "on tick," and filled it with oranges, on the same terms, and went to peddling. Twenty long, eventful years have since elapsed. Still that sturdy old pioneer has stuck to Portland, and worked his way through thick and thin; and *now* where do you think he is?—*in the poor house, and owes for the basket!* But to our

TEN-ACRE TRACTS!

The land is level—some timbered and some nearly clear—its altitude about the same as Portland—good roads—never overflows, and the price is regulated by the quality of the soil and the distance from the city.

PRICES:
Five-acre tracts, 1½ miles SE of East Portland $250@300
" " 4 " " " " ..... $ 75 00
Ten-acre tracts, 4 " " " " 200 00

PAYMENTS—On each tract, $25 down—balances in monthly installments of $10 each, with interest.

A GREAT DISCOVERY.
NO MORE GRAY HAIR OR WHISKERS
IF YOU WILL USE
J. LIPMAN'S HAIR RESTORER.
THIS IS NOT A VILE COMPOUND, MADE of Sugar of Lead, Lac Sulphur, and other poisonous minerals, which will produce headache, paralysis or insanity, but a harmless preparation, free from sediment, easily applied, and in a brief space of time restoring the hair or whiskers to their natural color. No preparation is necessary to use with it, but simply to use according to directions accompanying each bottle. This is the cheapest, safest and best Hair Restorer ever offered to the public.
J. LIPMAN, Proprietor.

NEWSPAPERARCHIVE®

PICKINGS.

The poor Siamese Twin, he is dying again, as an advertisement.

Colfax might have suggested the line, "And, vowing she would ne'er consent, consented."

The land in certain parts of Jersey is said to be so poor that you cannot raise a disturbance on it.

A St. Louis paper announces that the Duke Alexis has an arm disabled by "pump-handle calisthenics."

A poor sick man, with a mustard plaster on him, said: "If I should eat a loaf of bread I'd be a live sandwich."

The International Society of London has, by a majority of one, resolved to exclude reporters from its meetings in future.

An Indianapolis paper says that a banquet in that city was opened with prayer by Rev. Ainsley Hamilton, "Whisky Gauger for the Seventh District."

A letter writer, describing a ball, says the feature which made the deepest impression on him was the "unusual number of very plump women foaming over the tops of their dresses."

A New Hampshire man recently refused to subscribe for a daily paper, "because it helped to build up the business of the place, and the wealthier the town was the higher the taxes would be."

Titusville bride brooms step upon the hymenial platform, adjust the fatal noose, and swing off into that silent bourne from whence they can never return, save by the Indianapolis or connecting lines.

Mr. Crosley lately paid a visit to Danbury (Conn.) and hearing that the villagers had just made 8,000 pounds of cheese from sixteen cows, started immediately for the slaughter house to witness the operation.

Upon the marriage of one of her companions, a little girl, about eleven years of age, of the same school, said to her parents: "Why, don't you think Amelia is married and she hasn't gone through fractions yet!"

A total abstinence orator named Hale, has horrified Brooklyn by the assertion that in certain educational institutions for young ladies, in that city, wine is supplied to the pupils whenever they choose to order it. It is estimated that Hale's intemperate charge was evolved from his inner consciousness, and that "fetal depravity" is illustrated in such "total abstinence" harangues as his.

An autograph hunter lately succeeded in getting one from Bismarck. The Prince inscribed his name on the page graced already by the autograph of Guizot, and Theirs. M. Guizot had written, "In my long life I have learned two principles: To forgive much and never forget." M. Theirs had added, "A little forgetfulness does not hurt the sincerity of the pardon." Prince Bismarck improved the sentiment by writing, "I have learned to forget much and to have forgiven me."

Another Discovery by Agassiz.

The first results of the Hassler Scientific Expedition to the Southern Seas are recorded in a letter written by Professor Agassiz from St. Thomas. On the way thither, crossing the Sargasso Sea, as it is sometimes called, made careful observations on the sea-weed (*sargassum*) of which it is composed, and which has been a considerable puzzle to naturalists. He was confirmed in his opinion that it did not sprout in the water, but was invariably born by the ocean from along the shore. But the most curious discovery was that this weed was made up into a nest by a fish, whose eggs are deposited all through the mass. Professor Agassiz succeeded in developing some of the embryos, and find it to be the common pelagic chironectes of the Atlantic, named chironectes pictus by Cuvier. As the name indicates, it has fins like hands, with which it rather walks on the water than swims, but the Professor judges these curious appendages to be largely for the purpose of building these fish-cradles. What position in the scale of development his discovery may give to this curious fish the Professor does not state.

DREAMS.—We have been accustomed to consider the myth-creating power of the human mind as one specially belonging to the earlier stages of growth of society and of the individual. It will throw, I think, a rather curious light on the subject if we discover that this instinct exists in every one of us, and exerts itself with more or less energy through the whole of our lives. In hours of waking consciousness, indeed, it is suppressed, or has only the narrowest range of exercise, as in the fluency, noticeable in all persons not of the very strictest veracity, to supplement an incomplete anecdote with explanatory incidents, or throw a slightly-known story into the dramatic form, with dialogues constructed out of our own consciousness. But such small play of the myth-making faculty is nothing compared to its achievements during sleep. The instant that daylight and common sense are excluded, the fairy work begins. At the very least half our dreams (unless I greatly err) are nothing else than myths formed by unconscious cerebration on the same approved principles, whereby Greece and India and Scandinavia gave to us the stories which we were once pleased to set apart as "mythology" proper. Have we not here, then, evidence that there is a real law of the human mind causing us constantly to compose ingenious fables explanatory of the phenomena around us, a law which only sinks into abeyance in the waking hours of persons in whom the reason has been highly cultivated, and which resumes its sway even over their well-tutored brains when they sleep?—*Frances Power Cobbe, in McMillan's Magazine.*

USES OF CHLORINE IN THE MEDITERRANEAN.—It is long been known that a current is constantly flowing in the Mediterranean from the Black Sea and from the Atlantic, besides the numerous rivers pouring in always abundantly, and the question has often been asked: How is it that the great Midland sea does not become over-full? The answer is: Because, while a surface stream flows in through the Strait of Gibraltar, a stream, deep down, is constantly flowing out, and the existence of this under current is said to have been proved by a Captain, who sunk a basket of stones, by a rope, to a considerable depth, where, being acted upon by the strong stream, it towed the boat out against the surface current. Nevertheless, the existence of the under current has been often questioned. Dr. Carpenter, however, who has recently returned from a dredging cruise in the Mediterranean, states that he took much pains to investigate this question, and that in a short time he will publish an account of the operations by which he ascertained that the outflowing under current does not really exist.—*Chamber's Journal.*

REPUBLICAN STATE CONVENTION.

A Republican State Convention for the State of Oregon will be held at the city of Portland at 11 a. m. on Wednesday the 20th day of March, 1872, for the purpose of nominating a candidate for Member of Congress, six Delegates to the National Republican Convention to be held at Philadelphia, June 5th, 1872, three Presidential electors, and for the transaction of such other business as may be thought proper.

The several counties will be entitled to delegates in such Convention, as follows:

Baker	8	Lane	13
Benton	11	Linn	17
Clackamas	14	Marion	21
Coos	4	Multnomah	24
Curry	5	Polk	11
Columbia	3	Tillamook	2
Douglas	7	Umatilla	5
Grant	6	Union	9
Jackson	10	Wasco	7
Josephine	3	Yamhill	12

The State Central Committee recommends that the several counties hold their primary elections on Saturday, March 2d, and their county conventions for selection of delegates to the State Convention, on Saturday, March 9th, 1872.

T. B. ODENEAL,
Chairman State Central Committee.
C. P. CRONISE, Secretary.
SALEM, Feb. 1, 1872.

NOTICE.

The Republican Central Committee for Clackamas Co. are requested to meet at the Court House in Oregon City on Wednesday, Feb. 14th, 1872, at 1 o'clock P. M., to appoint a day for the County Convention and apportion the delegates.

OWEN WADE, Chairman.
Oregon City, Feb. 6, 1872.

FINANCE AND COMMERCE.

MONDAY EVENING, Feb. 12, 1872.

Gold in New York, 110¾.

Portland Legal Tender quotations, 90c buying and 91c selling.

The barkentine *Amelia* left under tow of the *Merrimac* for some points down the river where she will take on a deck load of Lumber. A copy of her manifest from here is given below.

The Columbia river was running thick with ice to-day, preventing the Tillamook schooner from coming up.

The bark *Metis* and ship *Chetah's* cargoes of Wheat are being brought rapidly forward and pending the discharge of Railroad cargo, from the United Kingdom by the vessels, it is being stored in Warehouses.

To-day can with truth be termed "Blue Monday." Outside of a few shipments of Flour, Feed, etc., per *California* to Victoria and Sound Ports, nothing was done. The receipts continue large with prices drooping for Eggs.

It was currently reported this afternoon that connection was made at the Cascades by the upper and lower boats to-day. If the report is confirmed it will cause renewed activity in business circles on Front street, as it is claimed by many that the stocks of goods held by traders east of the Cascades, are light and assortments badly broken. The obligations due from traders in that section to our merchants are said to be heavy, and are in some instances overdue, and the remittances, to meet said obligations, will be large, causing a general ease in the money market.

We are fast assuming the position when it is absolutely necessary for us to have, commercially more unanimity on all topics pertaining to the mercantile and financial interests of our city. Nothing conduces more to bring about that desirable end than to have established in our midst a "Board of Trade." A place of general resort, at a specified time each day, for our merchants, bankers, brokers and others engaged in business that would admit of their becoming members of such an institution. Here could meet all business men and exchange views on all topics having a direct or indirect bearing upon our commercial growth. Here could be exchanged views concerning the standing of any house asking extension or of any new firm seeking credit. It can be and is used for many and various purposes in other cities where established, and has been found to be of vast importance in creating friendly feeling and concert of action. There are many things requiring immediate attention which, if acted upon by a Board of Trade, would meet with recognition from those in authority, when individual enterprise would not be noticed. Hardly a week passes but something is brought to our notice which if brought before a Board of Trade would meet with quick and proper attention. San Francisco had for a long time great difficulty in establishing upon a permanent basis her "Merchants' Exchange," and all in the least conversant with her commercial history will concede that it has been of great advantage to her commercial growth. There were many important measures acted upon in the infancy of the Exchange, and which thereby received recognition abroad, that would have been throttled had no concert of action been taken, and even now San Francisco, large as her commercial interests are, would have poor success in coping with the many interests directed against her were it not for her Merchants' Exchange. Strangers visiting our city are not very favorably impressed with our progress commercially, owing to our not having a Board of Trade, and do not, until after a residence of several weeks recognize the importance of one commercial interests. No one acquainted with our business man but at once concede to them as much commercial and intellectual knowledge as is found in any community on the coast, and to strangers it is beyond their comprehension why we do not have a regularly organized working board of trade.

Our last mail advices from Manila, Oct. 12, 1871, report an advance in Sugar for forward delivery with tendencies to further advance. Rice established. The exports from the Philippine Islands from January 1st to October 12th for the years 1870 and 1871 compare as follows:

	1871. Piculs.	1870. Piculs.
To United States (Atlantic Ports)	447,142	227,879
To Great Britain and Continent	824,700	626,677
To Australia	140,661	54,564
To California	160,612	49,604
To China, Java and India	491	57,332

Our advices to Calcutta are to Sept. 24th, which we learn that the loss of two province vessels laden with Hemp had imparted a firm tone to the market which was strengthened by the receipts showing a marked falling off. The total receipts from the provinces at Manila from January 1st to October 12, 1871, was 298,403 piculs, against 321,011 piculs for same period in 1870, and 207,926 piculs in 1869. At Cebu the receipts compare for the same period as follows: 64,593 piculs in 1511, against 60,663 piculs in 1870 and 68,330 piculs in 1869. The exports of Hemp from January 1st to October 12th for the years of 1870 and 1871 compare as follows:

	1871. Piculs.	1870. Piculs.
To United States (Atlantic Ports)	179,502	217,655
To Great Britain and Continent	127,223	85,102
To Australia	1,000	1,000
To California	17,100	11,900
To China, Java and India	4,464	*2,300

At the above date the inquiry at Manila for Coffee was active with none in first hands either of the old or new crop.

The following tables give the stock of Wool in New York and Boston on the 1st of January, 1872, in comparison with the stock on hand 1st January, 1871:

STOCK IN NEW YORK.

	1872.	1871.
Domestic fleece	lbs. 1,729,000	3,150,000
Pulled	681,000	1,120,000
Texas, coarse	72,000	185,000
Texas, fine and medium	322,000	385,000
California and Oregon spring	501,600	635,000
California and Oregon fall	2,560,000	1,160,000
California and Oregon pulled	59,600	65,000
Total domestic	6,314,000	7,070,000
Foreign in bales	9,451	.....
Foreign in bl.	4,735,750	405,750
Total	lbs. 11,049,750	7,475,750

STOCK IN BOSTON.

	1872.	1871.
Fleece and tub	lbs. 3,159,000	4,380,000
Pulled	1,250,000	1,638,000
California	2,567,900	1,959,500
Total	7,165,000	6,977,500

Produce Market.

WHEAT—Owing to the telegraph not working through shippers and others are considerably regarding prices, and consequently the market was sold of interest to-day. We heard of a large lot offered, but the views of sellers and buyers being too far apart no sale has as yet been made. The barkentine *Amelia* took on for San Francisco 7,308 ctls. Cargoes of both the bark *Metis* and ship *Chatah* are coming forward and placed in warehouse until vessels are ready to receive cargo.

FLOUR—Shipments to Puget Sound and Victoria, per *California*, were commenced to-day. The barkent *Amelia* took on for San Francisco 500 bbls. Prices were marked down by millers and agents this afternoon 50 cts. ₱ bbl all round. This action on the part of our millers cannot but result in great advantage to them by retaining the trade that rightly belongs here. Extra superfine brands is quoted as jobbing lots at $6 25 ₱ bbl; choice country, $6; other qualities in proportion.

HAY—The supply in the country is reported larger than was at first estimated. Market this week at $25@30 ₱ ton for baled Timothy; other qualities unchanged.

FEED—Stock accumulating; and demand about the same. It is claimed by some that the stoppage of the *Ajax* Francisco mill will create a market for our surplus in that city. If this does not prove correct the market will break here. We quot Bran in jobbing lots at $25 ₱ ton; cut or chop Feed $35 to $45.

POTATOES—No market is over stocked, and prices giving way under renewed shipments from points of supply. The Tillamook schooner, reported in the river, has on board about 1,200 sacks. Advices from Puget Sound report very large shipments in contemplation for this market. An invoice of Sound vote placed on Saturday at 1¼ cents ₱ lb. The Sound Potatoes being equal with Oregon must rule ready sale.

EGGS—Under liberal receipts prices are less firm. We note sales during the day at 20c ₱ dozen.

General Merchandise.

AGRICULTURAL IMPLEMENTS—Gay's plow, Pfell patent, $60; Salky, $80; Eureka, $90. Buckeye Grain Drill, 9-hole, $150; 10-hole, $165. Moline Collin's cast steel, $30; Mollie cast steel, $16; Moline Buckeye, $45; Moline Clipper, $19 50; Peoria Clipper, $17 50; Boston Clipper, $24 50. Cider Mills—Junior Buckeye, $35 00; Reliable's 20 bbl, $150. Grant's Fanning Mills, $40@47 50. Mitchell and Bain Wagons, complete, $165@$195.

ALCOHOL—Quotable in bbls $2 05@2 10 ₱ gal. In cases, $2 20@2 25.

Beds, per night 75c

This being the only First Class Hotel in the city—being built of brick, with Bar and Billiard Rooms on the premises. Table and attendance unsurpassed on the Coast, and all the modern improvements—the subscriber trusts with the above combination of advantages to meet with a proportionate share of patronage from the citizens of Portland and the traveling public.

jy20dtf JOHN J. JACOBS, Proprietor
